

## Accepted Manuscript

Overexpression of signal sequence receptor  $\gamma$  (SSR3) predicts poor survival in patients with hepatocellular carcinoma

Shanzhou Huang, Wenqiang Zhong, Zhi Shi, Kun Wang, Huilin Jin, Zijian Zhang, Huanyu Wange, Yongcheng Wei, Sixv Chen, Qi Zhou, Xiaoshun He

PII: S0046-8177(18)30225-9  
DOI: doi:[10.1016/j.humpath.2018.06.014](https://doi.org/10.1016/j.humpath.2018.06.014)  
Reference: YHUPA 4611  
To appear in: *Human Pathology*  
Received date: 15 April 2018  
Revised date: 30 May 2018  
Accepted date: 9 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# Overexpression of Signal Sequence Receptor $\gamma$ (SSR3) Predicts Poor Survival in Patients with Hepatocellular Carcinoma

Running head: SSR3 Predicts Poor Survival in Patients with HCC

## Author full names
