

# Accepted Manuscript

Physicochemical properties of native and extruded maize flours in the presence of animal proteins

Ángela Bravo-Núñez, Manuel Gómez

PII: S0260-8774(18)30393-5  
DOI: 10.1016/j.jfoodeng.2018.09.005  
Reference: JFOE 9392  
To appear in: *Journal of Food Engineering*  
Received Date: 24 October 2017  
Accepted Date: 07 September 2018

Please cite this article as: Ángela Bravo-Núñez, Manuel Gómez, Physicochemical properties of native and extruded maize flours in the presence of animal proteins, *Journal of Food Engineering* (2018), doi: 10.1016/j.jfoodeng.2018.09.005

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Physicochemical properties of native and extruded maize flours in the presence**  
2 **of animal proteins**

3 Ángela Bravo-Núñez\*, Manuel Gómez
