This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Application of EN 16798 (formerly 15251) and ASHRAE 55-2017 to social housing in Chile
- Identification of adaptive comfort behaviours below the applicability limits
- Development of a new predictive adaptive comfort model for cold climate
