Accepted Manuscript

Title: Analytical and experimental bond strength investigation of cold forged composite shafts

Authors: Stefan Ossenkemper, Christoph Dahnke, A. Erman

Tekkaya

PII: S0924-0136(18)30399-6

DOI: https://doi.org/10.1016/j.jmatprotec.2018.09.008

Reference: PROTEC 15922

To appear in: Journal of Materials Processing Technology

Received date: 25-5-2018 Revised date: 17-8-2018 Accepted date: 6-9-2018

Please cite this article as: Ossenkemper S, Dahnke C, Tekkaya AE, Analytical and experimental bond strength investigation of cold forged composite shafts, *Journal of Materials Processing Tech.* (2018), https://doi.org/10.1016/j.jmatprotec.2018.09.008

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
