

Author's Accepted Manuscript

Mitochondrial calcium transport and the redox nature of the calcium-induced membrane permeability transition

Anibal E. Vercesi, Roger F. Castilho, Alicia J. Kowaltowski, Helena C.F. de Oliveira, Nadja C. de Souza-Pinto, Tiago R. Figueira, Estela N.B. Busanello

PII: S0891-5849(18)30974-2
DOI: <https://doi.org/10.1016/j.freeradbiomed.2018.08.034>
Reference: FRB13898

To appear in: *Free Radical Biology and Medicine*

Received date: 31 May 2018
Revised date: 16 August 2018
Accepted date: 28 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Mitochondrial calcium transport and the redox nature of the calcium-induced membrane permeability transition
