Greenhouse gas emissions of different fly ash based Geopolymer concretes in building construction

Malindu Sandanayake, Chamila Gunasekara, David Law, Guomin Zhang, Sujeeva Setunge

PII: S0959-6526(18)32672-6
DOI: 10.1016/j.jclepro.2018.08.311
Reference: JCLP 14095
To appear in: *Journal of Cleaner Production*
Received Date: 11 December 2017
Accepted Date: 29 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Greenhouse gas emissions of different fly ash based Geopolymer concretes in building construction
