Screening of how the organisation of life cycle nodes influences environmental impacts: A methodology

Lindkvist Mathias

PII: S0959-6526(18)32758-6

DOI: [10.1016/j.jclepro.2018.09.044](https://doi.org/10.1016/j.jclepro.2018.09.044)

Reference: JCLP 14179

To appear in: *Journal of Cleaner Production*

Received Date: 28 January 2018

Revised Date: 24 July 2018

Accepted Date: 5 September 2018

Please cite this article as: Mathias L, Screening of how the organisation of life cycle nodes influences environmental impacts: A methodology, *Journal of Cleaner Production* (2018), doi: 10.1016/j.jclepro.2018.09.044.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Screening of how the organisation of life cycle nodes influences environmental impacts: a methodology¹

Lindkvist, Mathias^a
