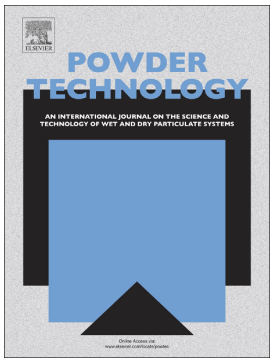
Accepted Manuscript



Energy analysis energy cascade dense gas-particle flow wall boundary condition numerical simulation

Mohammad Reza Haghgoo, Donald J. Bergstrom, Raymond J. Spiteri

PII: S0032-5910(18)30740-X
DOI: doi:10.1016/j.powtec.2018.09.013
Reference: PTEC 13687

To appear in: *Powder Technology*

Received date: 15 March 2018
Revised date: 20 August 2018
Accepted date: 6 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
