

Accepted Manuscript

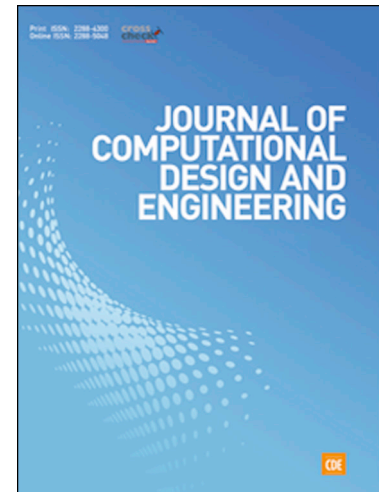

Applying novelty detection to identify model element to IFC class misclassifications on architectural and infrastructure Building Information Models

Bonsang Koo, Byungjin Shin

PII: S2288-4300(18)30014-9
DOI: <https://doi.org/10.1016/j.jcde.2018.03.002>
Reference: JCDE 142

To appear in: *Journal of Computational Design and Engineering*

Received Date: 30 January 2018
Revised Date: 22 March 2018
Accepted Date: 25 March 2018

Please cite this article as: B. Koo, B. This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title Page**Title**

Applying novelty detection to identify model element to IFC class misclassifications on
architectural and infrastructure Building Information Models

Author Information

First Author and Corresponding Author:

Bonsang Koo, Ph.D. Associate Professor

Associate Professor, Dept. of Civil Engineering, Seoul National University of Science and
Technology

Email: bonsang@seoultech.ac.kr

H.P: 82-10-6482-4858

Address: Areum Building 333,

Seoul National University of Science and Technology

232 Gongreung-ro, Nowon-gu, Seoul, Korea

Second Author:

Byungjin Shin, M.S. Research Assistant

Dept. of Civil Engineering, Seoul National University of Science and Technology

Email: byungjin0826@gmail.com

H.P: 82-10-6348-8823
