This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Title Page

Title: Behavioral and neural mechanisms by which prior experience impacts subsequent learning.

Short Title: Prior experience affects subsequent learning

Author: Ryan G. Parsons

Author Affiliation: Stony Brook University, Department of Psychology, 100 Nicolls Rd., Stony Brook, NY, 11794

Corresponding Author: Ryan G. Parsons, Department of Psychology, 100 Nicolls Rd., Stony Brook, NY, 11794. Email: [ryan.parsons@stonybrook.edu](mailto:ryan.parsons@stonybrook.edu)

Keywords: Learning, Memory, Fear, Metaplasticity, Behavior, Plasticity, Consolidation, Tagging, Allocation

Abstract: 244

Article Body: 6947

Number of Figures: 2

Number of Tables: 0

Supplemental Information: none
