This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Graphic Abstract:

Graphic abstract: Schematic illustrating the layer by layer assembly of pillar[5]arenes mutilayer films for recognition of nitrophenol isomers.
