

Author's Accepted Manuscript

Generalized ratiometric fluorescence nanosensors based on carbon dots and an advanced chemometric model

Xiu-Fang Yan, Zeng-Ping Chen, Yinzg Huang, Chao Kang, Ru-Qin Yu

PII: S0039-9140(18)30926-3
DOI: <https://doi.org/10.1016/j.talanta.2018.09.017>
Reference: TAL19031

To appear in: *Talanta*

Received date: 15 June 2018
Revised date: 30 August 2018
Accepted date: 5 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
