Correlation between imposed deformation and transformation lattice strain on α variant selection in a metastable β -Ti alloy under isothermal compression

Ke Hua, Yudong Zhang, Weimin Gan, Hongchao Kou, Jinshan Li, Claude Esling

PII: S1359-6454(18)30726-2

DOI: [10.1016/j.actamat.2018.09.022](https://doi.org/10.1016/j.actamat.2018.09.022)

Reference: AM 14831

To appear in: *Acta Materialia*

Received Date: 12 June 2018

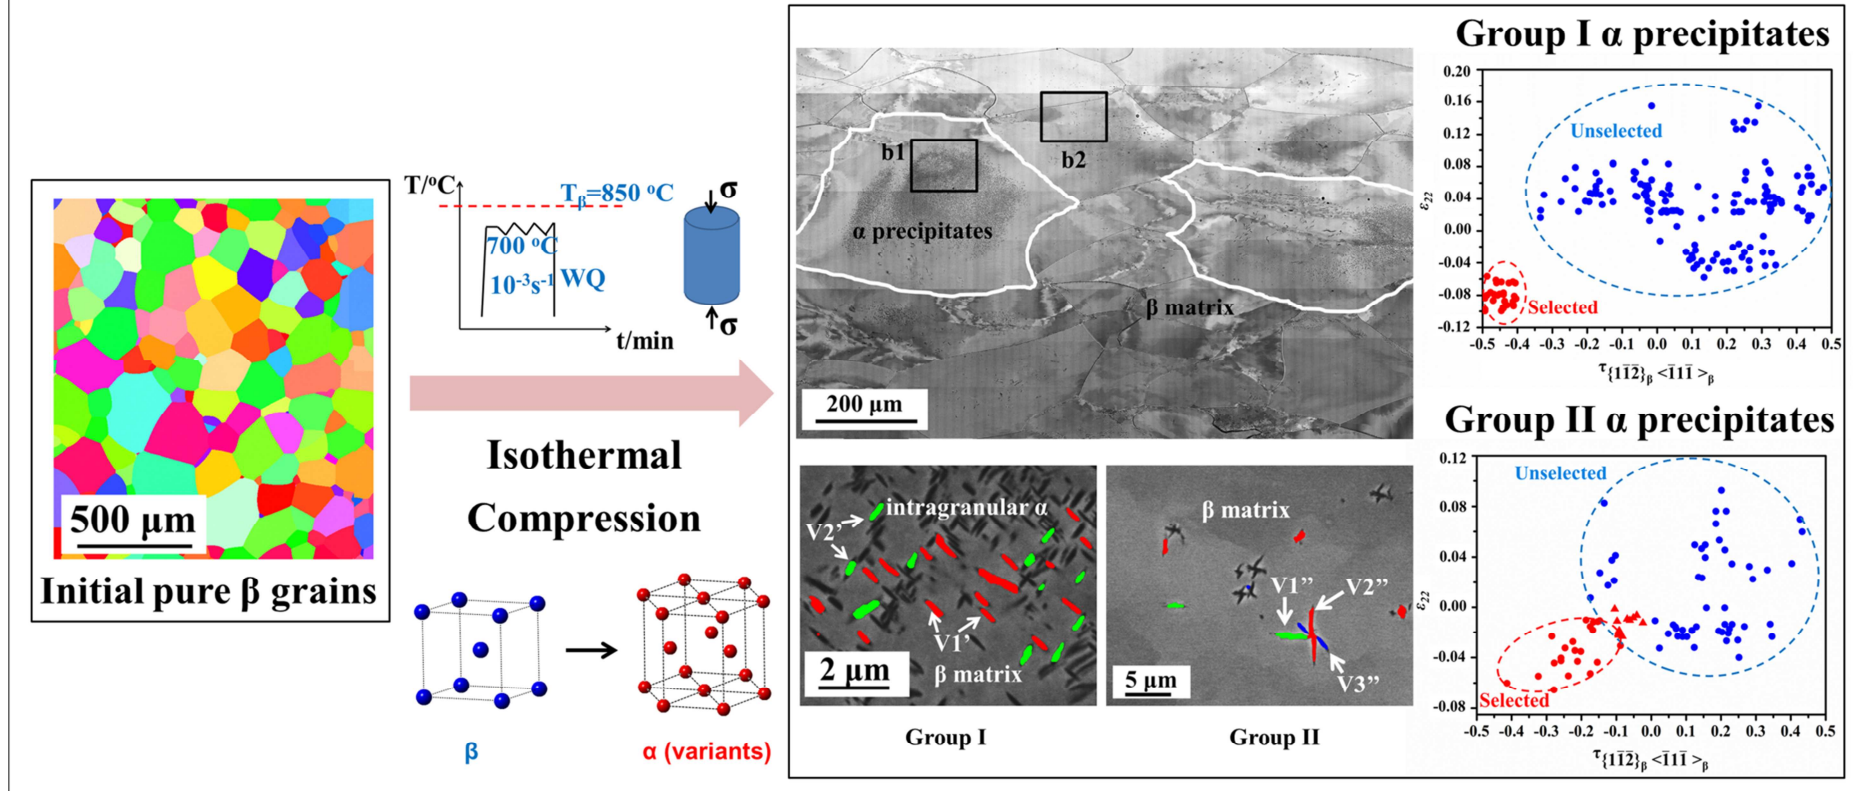

Revised Date: 10 September 2018

Accepted Date: 12 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Deformation induced variant selection of α phase in a metastable β -Ti alloy
