Second-order nonlinear optical properties of $\text{CuGa}_x\text{In}_{1-x}\text{Se}_2$ ($x = 0.54$):
experimental and theoretical investigations

Zong-Dong Sun, Yang Chi, Sheng-Ping Guo

PII: S1293-2558(18)30822-7
DOI: 10.1016/j.solidstatesciences.2018.09.002
Reference: SSSCIE 5751
To appear in: *Solid State Sciences*
Received Date: 28 July 2018
Accepted Date: 04 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Graphical Abstract

Experimental and theoretical NLO studies of $\text{CuGa}_{0.54}\text{In}_{0.46}\text{Se}_2$.
