Characteristics of microscopic pore structure and its influence on spontaneous imbibition of tight gas reservoir in the Ordos Basin, China

Fengpeng Lai, Zhiping Li, Tiantian Zhang, Anqi Zhou, Bao Gong

PII: S0920-4105(18)30775-7

DOI: [10.1016/j.petrol.2018.09.020](https://doi.org/10.1016/j.petrol.2018.09.020)

Reference: PETROL 5283

To appear in: *Journal of Petroleum Science and Engineering*

Received Date: 31 July 2018

Revised Date: 27 August 2018

Accepted Date: 5 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
