New low temperature process for stabilization of nanostructured  $\text{La}_2\text{NiMnO}_6$  and their magnetic properties

Vishwajit M. Gaikwad, Krishna K. Yadav, S.E. Lofland, Kandalam V. Ramanujachary, Suvankar Chakraverty, Ashok K. Ganguli, Menaka Jha

PII: S0304-8853(18)31291-5  
DOI: <https://doi.org/10.1016/j.jmmm.2018.08.081>  
Reference: MAGMA 64278

To appear in: *Journal of Magnetism and Magnetic Materials*

Received Date: 30 April 2018  
Revised Date: 30 July 2018  
Accepted Date: 30 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
