Cobalt oxide nanoparticles mediate tau denaturation and cytotoxicity against PC-12 cell line

Mina Nouri, Narges Esfahanizadeh, Mahsa Ghofrani Shahpar, Farnoosh Attar, Nasrin Sartipnia, Keivan Akhtari, Ali Akbar Saboury, Mojtaba Falahati

PII: S0141-8130(18)33054-X
DOI: [doi:10.1016/j.ijbiomac.2018.07.024](https://doi.org/10.1016/j.ijbiomac.2018.07.024)
Reference: BIOMAC 10068

To appear in: *International Journal of Biological Macromolecules*

Received date: 20 June 2018

Revised date: 5 July 2018

Accepted date: 7 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Cobalt oxide nanoparticles mediate tau denaturation and cytotoxicity against PC-12 cell
