Role of cationic carbosilane dendrons and metallic core of functionalized gold nanoparticles in their interaction with human serum albumin

Dzmitry Shcharbin, Elzbieta Pedziwiatr-Werbicka, Tatyana Serchenya, Sylwia Cyboran-Mikolajczyk, Lena Prakhira, Viktor Abashkin, Volha Dzmitruk, Maksim Ionov, Svetlana Loznikova, Iryna Shyrochyna, Oleg Sviridov, Cornelia E. Peña-González, Andrea Barrios Gumiel, Rafael Gómez, F. Javier de la Mata, Maria Bryszewska

PII: S0141-8130(18)32826-5
DOI: doi:[10.1016/j.ijbiomac.2018.07.023](https://doi.org/10.1016/j.ijbiomac.2018.07.023)
Reference: BIOMAC 10067

To appear in: *International Journal of Biological Macromolecules*

Received date: 8 June 2018
Revised date: 5 July 2018
Accepted date: 7 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
