

## Accepted Manuscript

Title: Recombinant ferritin-H induces immunosuppression in European sea bass larvae (*Dicentrarchus labrax*) rather than immunostimulation and protection against a *Vibrio anguillarum* infection

Authors: Eamy Nursaliza Yaacob, Bruno G. De Geest, Jens Goethals, Aline Bajek, Kristof Dierckens, Peter Bossier, Daisy Vanrompay

PII: S0165-2427(18)30166-1  
DOI: <https://doi.org/10.1016/j.vetimm.2018.09.001>  
Reference: VETIMM 9796

To appear in: *VETIMM*

Received date: 15-4-2018  
Revised date: 17-8-2018  
Accepted date: 4-9-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Recombinant ferritin-H induces immunosuppression in European sea bass larvae (*Dicentrarchus labrax*) rather than immunostimulation and protection against a *Vibrio anguillarum* infection**
