Subgenomic flaviviral RNAs: What do we know after the first decade of research

Andrii Slonchak, Alexander A. Khromykh

PII: S0166-3542(18)30465-0

DOI: [10.1016/j.antiviral.2018.09.006](https://doi.org/10.1016/j.antiviral.2018.09.006)

Reference: AVR 4369

To appear in: *Antiviral Research*

Received Date: 2 August 2018

Revised Date: 10 September 2018

Accepted Date: 10 September 2018

Please cite this article as: Slonchak, A., Khromykh, A.A., Subgenomic flaviviral RNAs: What do we know after the first decade of research, *Antiviral Research* (2018), doi: 10.1016/j.antiviral.2018.09.006.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
