This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Type of article: Original/ Full length article

Title of the article: The Effect of Inhaled Milrinone Versus Inhaled Levosimendan in Pulmonary Hypertension Patients Undergoing Mitral Valve Surgery- A Pilot Randomized Double-Blind Study

Running title: Inhaled milrinone vs inhaled levosimendan in PH in cardiac surgery patients

Contributors

First Author: Tanveer Singh Kundra¹, DA, DNB(Anaesthesiology), Sri Jayadeva Institute of Cardiovascular Sciences & Research, Bangalore. E-mail: tvskundra@yahoo.co.in

Second Author: Prabhakar V¹, MD, DM(Cardiac Anaesthesia), Sri Jayadeva Institute of Cardiovascular Sciences & Research, Bangalore.

Third Author: Parminder Kaur², MD(Anaesthesiology), Sir Ganga Ram Hospital, New Delhi. E-mail: parminderparmar@yahoo.com

Fourth Author: N Manjunatha¹, DA, MD(Anaesthesiology), Sri Jayadeva Institute of Cardiovascular Sciences & Research, Bangalore.

Fifth Author: Ravi Gandham³, MD, DM(Cardiac Anaesthesia), Apollo Hospital, Vishakhapatnam.

Study conducted at: Department of Cardiac Anaesthesia, Sri Jayadeva Institute of Cardiovascular Sciences & Research, Bangalore.

Department(s) and institution(s) of all authors: ¹Department of Cardiac Anaesthesia, Sri Jayadeva Institute of Cardiovascular Sciences & Research, Bangalore
