This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Title:** The Genetic Architecture of Long QT Syndrome: A Critical Reappraisal

**Running Title:** Giudicessi, Wilde, and Ackerman – Reappraisal of LQTS Genetics

**Authors:** John R. Giudicessi, MD, PhD<sup>1</sup>, Arthur A. M. Wilde, MD, PhD<sup>2,3</sup>, and Michael J. Ackerman, MD, PhD<sup>4</sup>

**Institutional affiliations:** <sup>1</sup>Department of Cardiovascular Medicine (Cardiovascular Diseases Fellowship and Clinician-Investigator Training Programs), Mayo Clinic, Rochester, MN, <sup>2</sup>Visiting Professor in the Department of Medicine (Division of Cardiology), Columbia University Irving Medical Center, New York, NY, <sup>3</sup>Department of Clinical & Experimental Cardiology, Academic Medical Center, University of Amsterdam, Amsterdam, The Netherlands, and <sup>4</sup>Departments of Cardiovascular Medicine (Division of Heart Rhythm Services), Pediatrics (Division of Pediatric Cardiology), and Molecular Pharmacology & Experimental Therapeutics (Windland Smith Rice Sudden Death Genomics Laboratory), Mayo Clinic, Rochester, MN

**Reprints and Correspondence:**

Michael J. Ackerman, M.D., Ph.D.

Long QT Syndrome/Genetic Heart Rhythm Clinic and Windland Smith Rice Sudden Death Genomics Laboratory

Guggenheim 501, Mayo Clinic, Rochester, MN 55905

507-284-0101 (phone), 507-284-3757 (fax), [ackerman.michael@mayo.edu](mailto:ackerman.michael@mayo.edu)

**Funding Sources:** This work was supported by the Windland Smith Rice Sudden

Comprehensive Sudden Cardiac Death Program (to Dr. Ackerman). Dr. Giudicessi thanks the

Mayo Clinic Cardiovascular Diseases Fellowship and Clinician Investigator Training Programs

for fostering an outstanding environment for physician-scientist training.

**Conflict of Interest Disclosures:** Dr. Ackerman is a consultant for Audentes Therapeutics, Boston Scientific, Gilead Sciences, Invitae, Medtronic, MyoKardia, and St. Jude Medical. From 2004 to 2016, M.J.A. and Mayo Clinic received sales-based royalties from Transgenomic for their FAMILION-LQTS and FAMILION-CPVT genetic tests. Currently, M.J.A. and Mayo
