

October 2018, Volume 79, Number 4

## CONTENTS

---

### Continuing Medical Education

 **599**

Urticaria: A comprehensive review

Epidemiology, diagnosis, and work-up

*Camila Antia, MD, Katherine Baquerizo, MD, Abraham Korman, MD, Jonathan A. Bernstein, MD, and Ali Alikhan, MD*

**615** CME examination

**616** Answers to CME examination (Identification No. JA1018), October 2018 issue of the *Journal of the American Academy of Dermatology*

 **617**

Urticaria: A comprehensive review

Treatment of chronic urticaria, special populations, and disease outcomes

*Camila Antia, MD, Katherine Baquerizo, MD, Abraham Korman, MD, Ali Alikhan, MD, and Jonathan A. Bernstein, MD*

**633** Answers to CME examination (Identification No. JB1018), October 2018 issue of the *Journal of the American Academy of Dermatology*

**634** CME examination

---

### Letter from the Editor

**635** Sample size  
*Dirk M. Elston, MD*

---

### A Clinician's Perspective

**636** Comprehending prurigo nodularis: Ay, there's the rub  
*Warren R. Heymann, MD*

---

### From the Dermatology Foundation

**638** Association of family structure with atopic dermatitis in US children

**Bottom line:** Children from family structures without 2 married biologic parents may benefit from increased surveillance, closer follow-up, and optimized treatment for incident AD.

*Costner McKenzie, BA, and Jonathan I. Silverberg, MD, PhD, MPH*

Periodicals postage paid at New York, NY and additional mailing offices.

**POSTMASTER:** Send address changes to Elsevier, Journal Returns, 1799 Highway 50 East, Linn, MO 65051, USA.

- Original Articles**      **645**      Clinically amelanotic or hypomelanotic melanoma: Anatomic distribution, risk factors, and survival  
**Bottom line:** Clinicians should have an increased index of suspicion in patients with a sun-sensitive skin phenotype, red hair, and associated actinic keratoses.  
*Edmund Wee, MBBS (Hons), Rory Wolfe, PhD, Catriona Mclean, FRCPA, MD, John W. Kelly, FACD, MD, and Yan Pan, MBBS (Hons), FACD*
- 652**      Psoriatic patients with chronic viral hepatitis do not have an increased risk of liver cirrhosis despite long-term methotrexate use: Real-world data from a nationwide cohort study in Taiwan  
**Bottom line:** Methotrexate may be a treatment option in psoriatic patients with chronic viral hepatitis.  
*Kuo-Tung Tang, MD, PhD, Yi-Ming Chen, MD, PhD, Shih-Ni Chang, MSPH, Ching-Heng Lin, PhD, and Der-Yuan Chen, MD, PhD*
- 659**      The impact of underlying disease state on outcomes in patients with pyoderma gangrenosum: A national survey  
**Bottom line:** There is a need for comprehensive evaluation for risk stratification in patients with pyoderma gangrenosum.  
*Benjamin H. Kaffenberger, MD, Alice Hinton, PhD, and Somashekar G. Krishna, MD, MPH*
- 664**      Epidemiology of pediatric nickel sensitivity: Retrospective review of North American Contact Dermatitis Group (NACDG) data 1994-2014  
**Bottom line:** Nickel sensitivity in children is common and clinically relevant.  
*Erin M. Warshaw, MD, MS, Kelly A. Aschenbeck, BS, Joel G. DeKoven, MD, Howard I. Maibach, MD, James S. Taylor, MD, Denis Sasseville, MD, Donald V. Belsito, MD, Joseph F. Fowler, Jr, MD, Kathryn A. Zug, MD, Matthew J. Zirwas, MD, Anthony F. Fransway, MD, Vincent A. DeLeo, MD, James G. Marks, Jr, MD, Melanie D. Pratt, MD, and Toby Mathias, MD*
- 672**      Trends in phototherapy utilization among Medicare beneficiaries in the United States, 2000 to 2015  
**Bottom line:** Access to office-based phototherapy remains limited in nonurban areas.  
*Sally Y. Tan, MD, MPH, Elizabeth Buzney, MD, and Arash Mostaghimi, MD, MPA, MPH*
- 680**      Factors associated with advanced-stage Merkel cell carcinoma at initial diagnosis and the use of radiation therapy: Results from the National Cancer Database  
**Bottom line:** Efforts aimed at ameliorating modifiable factors that are associated with late-stage diagnosis and lack of use of radiation therapy may meaningfully affect the management of and outcomes associated with Merkel cell carcinoma.  
*Oleksandr Trofymenko, MEd, Nathalie C. Zeitouni, MD, FRCPC, and Drew J. B. Kurtzman, MD*
