The impact of chromoendoscopy for surveillance of the duodenum in patients with MUTYH-associated polyposis and familial adenomatous polyposis

Joanna J. Hurley, MD, Laura E. Thomas, PhD, Sarah-Jane Walton, PhD, Siwan Thomas-Gibson, MD, Adam Haycock, MD, Noriko Suzuki, MD, Matthew Mort, PhD, Geraint Williams, PhD, Meleri Morgan, MD, Susan K. Clark, MD, Julian R. Sampson, DM, Sunil Dolwani, MD

PII: S0016-5107(18)32657-9

DOI: [10.1016/j.gie.2018.04.2347](https://doi.org/10.1016/j.gie.2018.04.2347)

Reference: YMGE 11063

To appear in: *Gastrointestinal Endoscopy*

Received Date: 10 November 2017

Accepted Date: 17 April 2018

Please cite this article as: Hurley JJ, Thomas LE, Walton S-J, Thomas-Gibson S, Haycock A, Suzuki N, Mort M, Williams G, Morgan M, Clark SK, Sampson JR, Dolwani S, The impact of chromoendoscopy for surveillance of the duodenum in patients with MUTYH-associated polyposis and familial adenomatous polyposis, *Gastrointestinal Endoscopy* (2018), doi: 10.1016/j.gie.2018.04.2347.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The impact of chromoendoscopy for surveillance of the duodenum in patients with MUTYH-associated polyposis and familial adenomatous polyposis
