Efficacy of annexin A3 blockade in sensitizing hepatocellular carcinoma to sorafenib and regorafenib

Man Tong, Noélia Che, Lei Zhou, Steve T. Luk, Phillis W. Kau, Stella Chai, Elly S. Ngan, Chung-Mau Lo, Kwan Man, Jin Ding, Terence K. Lee, Stephanie Ma

PII: S0168-8278(18)32119-6
DOI: <https://doi.org/10.1016/j.jhep.2018.05.034>
Reference: JHEPAT 6996

To appear in: *Journal of Hepatology*

Received Date: 30 January 2018
Revised Date: 26 April 2018
Accepted Date: 23 May 2018

Correspondence: Dr. Stephanie Ma, PhD, School of Biomedical Sciences, Li Ka Shing Faculty of Medicine, The University of Hong Kong, Room 47, 1/F, Laboratory Block, 21 Sassoon Road, Pokfulam, Hong Kong. E-mail: stefma@hku.hk.

Keywords: sorafenib resistance; regorafenib; liver cancer; ANXA3; antibody therapy

Conflict of interest: The authors have nothing to disclose.

Financial support: This work was funded by the National Natural Science Foundation of China – General Program (81672456), Research Grants Council of Hong Kong – Collaborative Research Fund (C7027-14G) and – Theme Based Research Scheme (T12-710/16-R). Stephanie Ma is a recipient of the Croucher Innovation Award from the Croucher Foundation.

Author contributions: M.T. and S.M. conceived the project. M.T. performed the research, analyzed and interpreted the data with the assistance of N.C. who helped with autophagy-related and animal studies, L.Z. who helped with the organoid and animal studies, S.T.L. who helped with the *in vitro* functional studies, P.K. who helped with the transmission electron microscopy tissue processing and S.C. who helped with intrahepatic injections. E.N. contributed thyroid cell line and reagents. C.M.L.
