This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Typing of vancomycin-resistant enterococci with MALDI-TOF mass spectrometry in a nosocomial outbreak setting

Intended category: Research note

Length of abstract: 211 words; length of article: 1198 words

Authors and affiliations:

Barbara J. Holzkecht^{1*}, Rimtas Dargis², Michael Pedersen^{1#}, Mette Pinholt^{3,4}, Jens Jørgen Christensen^{2,4} and the Danish Enterococcal Study Group
