Feasibility of using computer simulation to predict the postoperative outcome of the minimally invasive Nuss procedure: Simulation prediction vs. postoperative clinical observation

Kwong Ming Tse , Long Bin Tan , Shu Jin Lee ,
Mohamed Zulfikar Rasheed , Bien Keem Tan , Heow Pueh Lee

PII: S1748-6815(18)30180-3
DOI: [10.1016/j.bjps.2018.05.026](https://doi.org/10.1016/j.bjps.2018.05.026)
Reference: PRAS 5686

To appear in: *Journal of Plastic, Reconstructive & Aesthetic Surgery*

Received date: 27 November 2017
Revised date: 16 April 2018
Accepted date: 28 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Feasibility of using computer simulation to predict the postoperative outcome of the minimally invasive Nuss procedure: Simulation prediction vs. postoperative clinical observation
