

## Accepted Manuscript

Stable carbon isotope records of black carbon on Chinese Loess Plateau since last glacial maximum: An evaluation on their usefulness for paleorainfall and paleovegetation reconstruction

Xu Wang, Linlin Cui, Shiling Yang, Jixuan Zhai, Zhongli Ding

PII: S0031-0182(17)30802-7  
DOI: doi: [10.1016/j.palaeo.2017.08.008](https://doi.org/10.1016/j.palaeo.2017.08.008)  
Reference: PALAEO 8399

To appear in: *Palaeogeography, Palaeoclimatology, Palaeoecology*

Received date: 28 October 2016  
Revised date: 24 February 2017  
Accepted date: 2 August 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Stable carbon isotope records of black carbon on Chinese Loess Plateau since last glacial maximum: An evaluation on their usefulness for paleorainfall and paleovegetation reconstruction**
