Accepted Manuscript

Effects of ocean acidification on algae growth and feeding rates of juvenile sea urchins

Adriana Rodríguez, Sabrina Clemente, Alberto Brito, José Carlos Hernández

PII: S0141-1136(18)30232-0

DOI: 10.1016/j.marenvres.2018.07.004

Reference: MERE 4562

To appear in: Marine Environmental Research

Received Date: 29 March 2018
Revised Date: 29 June 2018
Accepted Date: 8 July 2018

Please cite this article as: Rodríguez, A., Clemente, S., Brito, A., Hernández, José.Carlos., Effects of ocean acidification on algae growth and feeding rates of juvenile sea urchins, *Marine Environmental Research* (2018), doi: 10.1016/j.marenvres.2018.07.004.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
