Phase difference between groundwater storage changes and groundwater level fluctuations due to compaction of an aquifer-aquitard system

Dongmei Han, Guoliang Cao

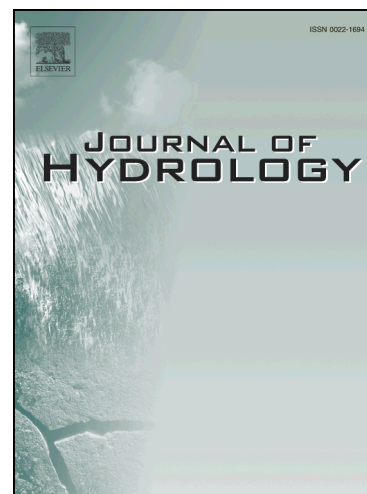

PII: S0022-1694(18)30696-6
DOI: <https://doi.org/10.1016/j.jhydrol.2018.09.010>
Reference: HYDROL 23107

To appear in: *Journal of Hydrology*

Received Date: 24 June 2018
Revised Date: 2 September 2018
Accepted Date: 6 September 2018

Please cite this article as: Han, D., Cao, G., Phase difference between groundwater storage changes and groundwater level fluctuations due to compaction of an aquifer-aquitard system, *Journal of Hydrology* (2018), doi: <https://doi.org/10.1016/j.jhydrol.2018.09.010>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Phase difference between groundwater storage changes and groundwater level fluctuations due to compaction of an aquifer-aquitard system
