

Accepted Manuscript

A matheuristic approach with nonlinear subproblems for large-scale packing of ellipsoids

E.G. Birgin, R.D. Lobato

PII: S0377-2217(18)30611-8
DOI: [10.1016/j.ejor.2018.07.006](https://doi.org/10.1016/j.ejor.2018.07.006)
Reference: EOR 15244

To appear in: *European Journal of Operational Research*

Received date: 27 September 2017
Revised date: 3 July 2018
Accepted date: 4 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- A matheuristic for packing a huge number of ellipsoids is introduced
- The flexibility of the approach allows considering a variety of constraints
- The computational cost scales linearly with the number of ellipsoids being packed
