Optimization of hydraulic retention time and organic loading rate for volatile fatty acid production from low strength wastewater in an anaerobic membrane bioreactor

Mohd Atiqueuzzaman Khan, Huu Hao Ngo, Wenshan Guo, Yiwen Liu, Long Duc Nghiem, Soon Woong Chang, Dinh Duc Nguyen, Shicheng Zhang, Gang Luo, Hui Jia

PII: S0960-8524(18)31328-2  
DOI: <https://doi.org/10.1016/j.biortech.2018.09.075>  
Reference: BITE 20491

To appear in: *Bioresource Technology*

Received Date: 16 August 2018  
Revised Date: 13 September 2018  
Accepted Date: 14 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
