\* This is a revised version of the paper entitled 'A Theory of Joint Venture Formation and Break-up' presented at the Asia-Pacific Thai Conference 2017. Authors are greatly indebted to the comments and suggestions made by two anonymous referees and Editor-in-Chief of this journal.

## Abstract

The primary reason why foreign and local partners form international joint ventures is the synergy between their different competencies. However, such enterprises may break up due to a host of endogenous and exogenous factors. The evidence indicates that inter-partner learning of each other's competencies during operation of the enterprise is an important
