Engineering the human pluripotent stem cell microenvironment to direct cell fate

Laurie B. Hazeltine, Joshua A. Selekmán, Sean P. Palecek

PII: S0734-9750(13)00061-X
DOI: doi: [10.1016/j.biotechadv.2013.03.002](https://doi.org/10.1016/j.biotechadv.2013.03.002)
Reference: JBA 6660

To appear in: *Biotechnology Advances*

Received date: 4 April 2012
Revised date: 20 February 2013
Accepted date: 11 March 2013

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Engineering the human pluripotent stem cell microenvironment to direct cell fate

Laurie B. Hazeltine, * Joshua A. Selekmán, * and Sean P. Palecek

*These authors contributed equally
