

## Accepted Manuscript

Title: Angiotensin I-converting enzyme inhibitory peptides from an enzymatic hydrolysate of flounder fish (*Paralichthys olivaceus*) muscle as a potent anti-hypertensive agent

Author: Ju-Young Ko Nalae Kang Ji-Hyeok Lee Jin-Soo Kim Won-Suck Kim Sun-Joo Park Yong-Tae Kim You-Jin Jeona

PII: S1359-5113(16)30009-5  
DOI: <http://dx.doi.org/doi:10.1016/j.procbio.2016.01.009>  
Reference: PRBI 10611

To appear in: *Process Biochemistry*

Received date: 1-5-2015  
Revised date: 16-11-2015  
Accepted date: 27-1-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
