

Accepted Manuscript

Title: Installing cables did not affect annual radial increment in co-dominant stems of red oaks

Author: Brian Kane Wesley Autio

PII: S1618-8667(14)00036-3

DOI: <http://dx.doi.org/doi:10.1016/j.ufug.2014.03.008>

Reference: UFUG 25430

To appear in:

Received date: 19-10-2013

Revised date: 28-2-2014

Accepted date: 27-3-2014

Please cite this article as: Kane, B., Autio, W., Installing cables did not affect annual radial increment in co-dominant stems of red oaks, *Urban Forestry & Urban Greening* (2014), <http://dx.doi.org/10.1016/j.ufug.2014.03.008>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
