MARK-ELM: Application of a Novel Multiple Kernel Learning Framework for Improving the Robustness of Network Intrusion Detection

John M. Fossaceca, Thomas A. Mazzuchi, Shahram Sarkani

PII: S0957-4174(14)00819-7

DOI: <http://dx.doi.org/10.1016/j.eswa.2014.12.040>

Reference: ESWA 9765

To appear in: *Expert Systems with Applications*

Please cite this article as: Fossaceca, J.M., Mazzuchi, T.A., Sarkani, S., MARK-ELM: Application of a Novel Multiple Kernel Learning Framework for Improving the Robustness of Network Intrusion Detection, *Expert Systems with Applications* (2014), doi: <http://dx.doi.org/10.1016/j.eswa.2014.12.040>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title Page

MARK-ELM: Application of a Novel Multiple Kernel Learning Framework for Improving the Robustness of Network Intrusion Detection

John M. Fossaceca – Department of Engineering Management and Systems Engineering at The George Washington University, Washington, DC, USA, jfossaceca@gwu.edu

Thomas A. Mazzuchi – Department of Engineering Management and Systems Engineering at The George Washington University, Washington, DC, USA, mazzu@gwu.edu

Shahram Sarkani – Department of Engineering Management and Systems Engineering at The George Washington University, Washington, DC, USA, sarkani@gwu.edu
