Folded Hasse Diagrams of Combined Traces

Łukasz Mikulski, Maciej Koutny

PII: S0020-0190(13)00285-8
DOI: 10.1016/j.ipl.2013.11.009
Reference: IPL 5023

To appear in: *Information Processing Letters*

Received date: 16 November 2012
Revised date: 10 November 2013
Accepted date: 11 November 2013

Please cite this article in press as: Ł. Mikulski, M. Koutny, Folded Hasse Diagrams of Combined Traces, *Information Processing Letters* (2013), http://dx.doi.org/10.1016/j.ipl.2013.11.009

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- We introduce and investigate folded Hasse diagrams of comtraces.
- We develop an efficient on-line algorithm for constructing folded Hasse diagrams.
- We discuss the correctness and the complexity of the algorithm.
- We briefly discuss possible applications of the algorithm.
