Title: An imidazole-containing core-substituted naphthalene diimide: Fluorescent sensing properties towards copper ion and optimized selectivity by tuning the solvent medium

Author: Nana Li Luyi Zong Qianqian Li Zhen Li

PII: S0925-4005(14)01330-6
DOI: <http://dx.doi.org/doi:10.1016/j.snb.2014.10.118>
Reference: SNB 17616

To appear in: *Sensors and Actuators B*

Received date: 28-7-2014
Revised date: 27-10-2014
Accepted date: 27-10-2014

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**An imidazole-containing core-substituted naphthalene diimide:
fluorescent sensing properties towards copper ion and optimized
selectivity by tuning the solvent medium**
