Disturbed flow in a patient-specific arteriovenous fistula for haemodialysis: multidirectional and reciprocating near-wall flow patterns

Bogdan Ene-Iordache, Cristina Semperboni,  
Gabriele Dubini, Andrea Remuzzi

PII: S0021-9290(15)00229-8  
DOI: <http://dx.doi.org/10.1016/j.jbiomech.2015.04.013>  
Reference: BM7130

To appear in: *Journal of Biomechanics*

Received date: 12 December 2014

Revised date: 27 March 2015

Accepted date: 5 April 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
