Effect of bone fragment impact velocity on biomechanical parameters related to spinal cord injury: A finite element study

Batbayar Khuyagbaatar, Kyungsoo Kim, Yoon Hyuk Kim

PII: S0021-9290(14)00269-3  
DOI: <http://dx.doi.org/10.1016/j.jbiomech.2014.04.042>  
Reference: BM6643

To appear in: *Journal of Biomechanics*

Accepted date: 26 April 2014

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Effect of bone fragment impact velocity on biomechanical parameters  
related to spinal cord injury: A finite element study**
