Computation in the rabbit aorta of a new metric – the Transverse Wall Shear Stress – to quantify the multidirectional character of disturbed blood flow

Véronique Peiffer, Spencer J. Sherwin, Peter D. Weinberg

PII: S0021-9290(13)00383-7  
DOI: <http://dx.doi.org/10.1016/j.jbiomech.2013.08.003>  
Reference: BM6261

To appear in: *Journal of Biomechanics*

Received date: 29 March 2013  
Revised date: 9 July 2013  
Accepted date: 11 August 2013

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
