

Accepted Manuscript

Next generation covered stents made from nanocomposite materials: A complete assessment of uniformity, integrity and biomechanical properties

Yasmin Farhatnia, Jun Hon Pang, Arnold Darbyshire, Ryan Dee, Aaron Tan, Alexander M. Seifalian

PII: S1549-9634(15)00145-8
DOI: doi: [10.1016/j.nano.2015.07.002](https://doi.org/10.1016/j.nano.2015.07.002)
Reference: NANO 1153

To appear in: *Nanomedicine: Nanotechnology, Biology, and Medicine*

Received date: 3 March 2015
Revised date: 23 June 2015
Accepted date: 5 July 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Next generation covered stents made from nanocomposite materials: A complete assessment of uniformity, integrity and biomechanical properties
