This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

HEADER: COGNITIVE LOAD, SUPPRESSION, ACUTE STRESS DISORDER

Cognitive load undermines thought suppression in acute stress disorder.

Reginald D.V. Nixon

Julie Rackebrandt

School of Psychology, Flinders University

### **Acknowledgements and correspondence**

This research was supported by an Australian Research Council Discovery Project grant awarded to the first author (DP0557070). The granting body had no role in the design, collection, analysis or interpretation of the data, or submission of the manuscript. We thank the participants who contributed their time to the study and Paul Williamson for his comments on an earlier draft.
