

Thanks to Reviewers

On behalf of the Section Editors, the Editor-in-Chief of PAIN, Francis Keefe, wishes to acknowledge and thank all of the reviewers who have given of their time and expertise to review articles for the journal. This is an invaluable task and one that greatly contributes to the maintenance of PAIN as the premier journal in the field. By the end of this year (for the period 1 January 2012 to 1 October 2013), reviewers will have provided opinions on over 2300 manuscripts and evaluated over 1000 revisions. The review process continues to shorten, thanks in large part to the dedication and rapid response of our reviewers. We are, of course, very grateful to all authors who choose PAIN to publish their basic and clinical research findings, without which the world of pain treatment and research would certainly not be moving forward in the dynamic way that it does.

Thank you.
