Screening and target identification of bioactive compounds that modulate cell migration and autophagy

Etsu Tashiro, Masaya Imoto

PII: S0968-0896(16)30248-6  
DOI: <http://dx.doi.org/10.1016/j.bmc.2016.04.014>  
Reference: BMC 12928

To appear in: *Bioorganic & Medicinal Chemistry*

Received Date: 17 February 2016  
Revised Date: 3 April 2016  
Accepted Date: 6 April 2016

Please cite this article as: Tashiro, E., Imoto, M., Screening and target identification of bioactive compounds that modulate cell migration and autophagy, *Bioorganic & Medicinal Chemistry* (2016), doi: <http://dx.doi.org/10.1016/j.bmc.2016.04.014>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Screening and target identification of bioactive compounds that modulate cell migration and autophagy

Etsu Tashiro and Masaya Imoto

*Department of Biosciences and Informatics, Faculty of Science and Technology, Keio University*

*3-14-1 Hiyoshi, Kohoku-ku, Yokohama City, Japan 223-8522*

### Key word (3-10 key words are necessary)

cell migration, autophagy, filopodia, lamellipodia, target identification, 14-3-3, GLUT, VCP

### Correspondence

Masaya Imoto Ph.D., Department of Biosciences and Informatics, Faculty of Science and Technology, Keio University.

3-14-1 Hiyoshi, Kohoku-ku, Yokohama City 223-8522, Japan
