

## Bioorganic & Medicinal Chemistry Letters Volume 23, Issue 2, 2013

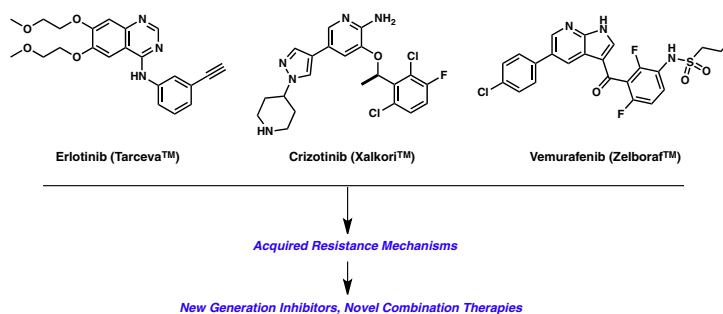

### Contents

#### BMCL DIGEST

#### Overcoming acquired resistance to kinase inhibition: The cases of EGFR, ALK and BRAF

pp 394–401

Simon Giroux

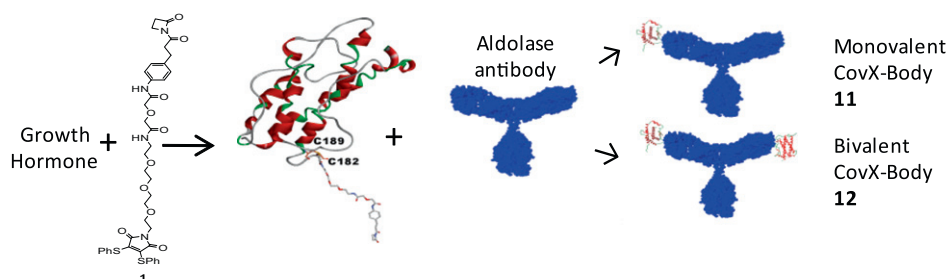

#### REGULAR ARTICLES

#### Development of a long acting human growth hormone analog suitable for once a week dosing

pp 402–406

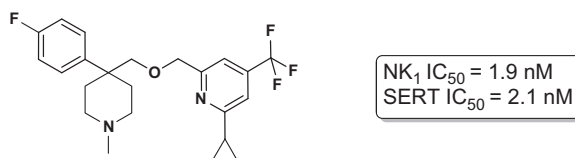

Moorthy S.S. Palanki\*, Abhijit Bhat, Ben Bolanos, Florence Brunel, Joselyn Del Rosario, Danielle Dettling, Mark Horn, Rodney Lappe, Ryan Preston, Annette Sievers, Nebojsa Stankovic, Gary Woodnut, Gang Chen

#### Design, optimization, and in vivo evaluation of a series of pyridine derivatives with dual NK<sub>1</sub> antagonism and SERT inhibition for the treatment of depression

pp 407–411

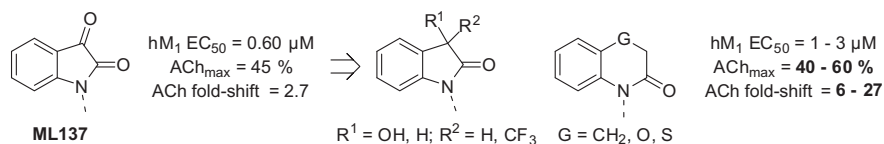

Kevin W. Gillman\*, Michael F. Parker, Mark Silva, Andrew P. Degnan, George O. Tora, Nicholas J. Lodge, Yu-Wen Li, Snjezana Lelas, Matthew Taber, Rudolf G. Krause, Robert L. Bertekap, Amy E. Newton, Rick L. Pieschl, Kelly D. Lengyel, Kim A. Johnson, Sarah J. Taylor, Joanne J. Bronson, John E. Macor

### Isatin replacements applied to the highly selective, muscarinic M<sub>1</sub> PAM ML137: Continued optimization of an MLPCN probe molecule

pp 412–416

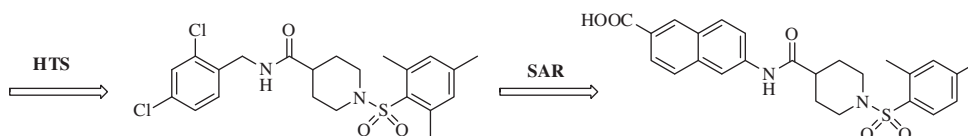

Bruce J. Melancon, Michael S. Poslusney, Patrick R. Gentry, James C. Tarr, Douglas J. Sheffler, Margrith E. Mattmann, Thomas M. Bridges, Thomas J. Utley, J. Scott Daniels, Colleen M. Niswender, P. Jeffrey Conn, Craig W. Lindsley, Michael R. Wood\*

### Synthesis and structure–activity relationship of piperidine-derived non-urea soluble epoxide hydrolase inhibitors

pp 417–421

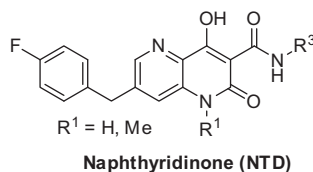

Stevan Pecic, Svetlana Pakhomova, Marcia E. Newcomer, Christophe Morisseau, Bruce D. Hammock, Zhengxiang Zhu, Alison Rinderspacher, Shi-Xian Deng\*

### Naphthyridinone (NTD) integrase inhibitors: N1 Protio and methyl combination substituent effects with C3 amide groups

pp 422–425

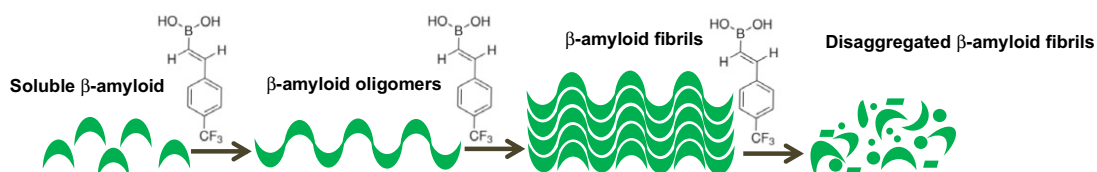

Brian A. Johns\*, Takashi Kawasuji, Jason G. Weatherhead, Eric E. Boros, James B. Thompson, Cecilia S. Koble, Edward P. Garvey, Scott A. Foster, Jerry L. Jeffrey, Tamio Fujiwara

### Discovery of alkenylboronic acids as neuroprotective agents affecting multiple biological targets involved in Alzheimer's disease

pp 426–429

Karim Jiménez-Aligaga, Paloma Bermejo-Bescós\*, Sagrario Martín-Aragón, Aurelio G. Csáky\*
