Thickness-controlled multilayer hexagonal boron nitride film prepared by plasma-enhanced chemical vapor deposition

Ji-Hoon Park, Soo Ho Choi, Jiong Zhao, Seunghyun Song, Woochul Yang, Soo Min Kim, Ki Kang Kim, Young Hee Lee

PII: S1567-1739(16)30099-2

DOI: [10.1016/j.cap.2016.03.025](https://doi.org/10.1016/j.cap.2016.03.025)

Reference: CAP 4218

To appear in: *Current Applied Physics*

Received Date: 18 January 2016

Revised Date: 19 March 2016

Accepted Date: 21 March 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Thickness-controlled multilayer hexagonal boron nitride film prepared by plasma-enhanced chemical vapor deposition
