Importance of extended spatial coverage for quantitative susceptibility mapping of iron-rich deep grey matter

Ahmed M. Elkady, Hongfu Sun, Alan H. Wilman

PII: S0730-725X(15)00336-7
DOI: doi: [10.1016/j.mri.2015.12.032](https://doi.org/10.1016/j.mri.2015.12.032)
Reference: MRI 8496

To appear in: *Magnetic Resonance Imaging*

Received date: 24 November 2015
Accepted date: 18 December 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Importance of Extended Spatial Coverage for Quantitative Susceptibility Mapping
of Iron-Rich Deep Grey Matter**
