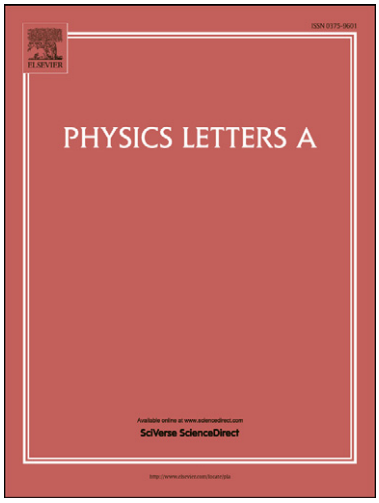
Accepted Manuscript



Feynman Integral and Perturbation Theory in Quantum Tomography

Aleksey Fedorov

PII: S0375-9601(13)00670-1
DOI: 10.1016/j.physleta.2013.07.020
Reference: PLA 22086

To appear in: *Physics Letters A*

Received date: 16 June 2013
Revised date: 11 July 2013
Accepted date: 12 July 2013

Please cite this article in press as: A. Fedorov, *Physics Letters A* (2013), http://dx.doi.org/10.1016/j.physleta.2013.07.020

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Quantum tomogrpahy.
- Feynman integral representation.
- Tomographic perturbation theory.
